==========

TWO-UP: $4.00

The old Australian gambling game. Watch the coins bounce.

SLOT MACHINE: $6.00
(Version 2.0)

See how lucky you are on the "LYSCo Easy Money Machine". A four barrel colour slot machine with hold and nudge.

RUSSIAN ROULETTE: $4.00

Play Russian Roulette against your VZ-200 without the risk of the original game. In this version of the old game, the barrel of an 8 shot revolver is rolled, $100 is put on the table and you and your VZ-200 take turns at pulling the trigger. Either of you can quit at any time, but if you do, the money goes to the quitter's opponent, the barrel is re-rolled and the game continues. A simple but fun gambling game.

BEAT THE BUG $6.00

This is a puzzle where the player has to arrange a set of counters in a particular way. The player may start with a random or set pattern. This may be made relatively easy or extremely hard, which is determined by the amount of time and number of moves that the player selects before starting. This is unchallenged as the best puzzle program available for the VZ-200. You will need all your wits about you to complete this one!

MOUSETRAP $8.00

The aim of this game is to guide your mouse around the various mazes and pick up the cheese pieces without landing on a block or a trap. (Traps can be sprung once you know the secret!). This game is fast and furious and will require skill and reflexes to make it through the increasingly difficult screens. Great sound!

ALIEN ESCAPE: $7.00

Find your way to the shuttle, eating as many dots as you can on your way. But watch for the ever growing alien. You can play it safe taking a short route to the shuttle, or you can stick around munching dots to receive a high score. Alien escape makes full use of the VZ-200's sound and graphics facilities. This game comes with a keyboard or joystick option.

CUB SCOUT $8.00

In this game the player becomes a Cub Scout setting out to do his good deed for the day; that is, to help an old lady across the road. That may sound easy, but it isn't; the cars and buses move so fast it takes a lot of skill crossing the road. Once you've got the old lady across the road, you have to get her across a river by jumping on logs and turtles. But watch out, one of the logs is slippery. Keyboard or joystick option.

ASTEROID FIELD $6.00

This is a game where the player has to fly a ship through a series of asteroid fields shooting as many asteroids as possible without being hit. Each asteroid field moves faster than the last. Joystick or keyboard.

LITTLE PACKER $8.00

In this great version of Pacman, the player has to move around the screen munching dots. But beware!!! There are four ghosts in the maze who track and try to eat you. If you eat one of the four pills around the maze, the roles temporarily change and you become the hunter. When you have eaten most of the dots, a gate appears to the next maze. Colour, sound and on-screen scoring. Joystick or keyboard option.

CAVERNS OF VENUS $5.00
(Version 2.0)

See how many caverns you can steer your ship through. But watch out! Each cavern is harder and faster than the last. A great game to test and improve your reflexes. With sound, colour and on-screen scoring. This game includes a keyboard or joystick option.

GOLDMINE ADVENTURE:$7.00

This is a two programme adventure where the player is required to find his way through a goldmine and then slay a dragon. Meet wizards, warlocks and witches. Fight goblins and monsters. SPEED AND ACCURACY $7.00

This program tests your typing speed and accuracy. A great way to learn your VZ-200 keyboard. Words are tossed onto the screen and you have to type them as fast and as accurately as possible. A great way to improve those typing skills!
